

Community Announcement: Fiber to the Home Build

- The Iowa Tribe of Kansas and Nebraska is excited to announce the start of the Fiber to the Home build for the community of White Cloud, Kansas!

Project Start Date: November 15, 2024

Estimated Duration: 8-10 weeks

Please be alert to construction crews working on the roads and poles throughout the community. Your patience and understanding as these crews work hard to connect every home with high-speed fiber Internet are greatly appreciated. This project will bring enhanced connectivity to our community, opening up new opportunities for education, communication, and business.

Thank you for your cooperation and support!
