

## Childcare Assistance Vouchers:

The IowA tribe of Kansas and Nebraska works with families and childcare providers to help promote the availability of quality child care in our service area. Parents are provided financial assistance to pay for childcare while participating in a qualifying activity.

- Tribal members must reside in the service area of Brown or Doniphan counties in Kansas, Richardson County in Nebraska, or Holt County in Missouri.
- Vouchers are available for state-licensed Childcare homes or centers.
- Cina Akidawe offers assistance in paying for childcare for families who are working, attending an educational or training program, or involved with Child Protective Services.
- In order to determine eligibility, the family would need to submit a completed application. Upon approval, families will be notified of their approved voucher amounts.
