WITH WILLIAM GREEN

Friday, September 18th, 4 p.m.
at the George Ogden Building

Come join William Green, Ph.D. as he discusses his book about the 1837 Ioway Map. This map was created by the Ioway during the removal to document their traditional lands. Dr. Green and the late Lance Foster, former tribal historical preservation officer for the Ioway of Kansas and Nebraska spent over 30 years carefully studying this map and its significance for the history of the Ioway.
